

How It Works

Express 500

When you start your business as a NetTrav Associate, you begin with the **Express 500 Travel Plan**. You can literally put yourself in this incredible business for a one time cost of only \$397* USD. This includes your \$47 Associate Registration Fee and covers the retail NT Express Travel Plan Membership with 500 initial Travel Points deposited into your NetTrav Travel Bank.

Every time one of your referrals purchases an Express 500 Travel Plan for \$350, you earn an immediate \$50 retail commission.

Next, through the Express 500 Pay Center you can rapidly begin earning unlimited \$500 Team Cycle Bonus paydays. In addition, you earn \$100 Sponsor Match Bonuses** each time one of your personally sponsored team members cycles.

What does it take to earn *unlimited* \$500 cycle bonuses? It's simple. Just sponsor two new Associates into the Pay Center and you are fully qualified to earn Express 500 (E500) Team Bonuses again and again – a simple way to fast track your immediate cash flow.

E500 is a Team Pay Center made up of you and only 6 additional team members. The beauty is that these team members can flow into your current Express 500 team structure from you, the Team Members above you and below you. We call this the Power of Two and it is the fastest way to a payday in the direct selling industry.

When you cycle, not only do you earn \$500, you also earn 300 Team Dollars which automatically re-enters you into a new Express Pay Center following your Sponsor and buys you an additional block of 100 Travel Points deposited right into your NetTrav Travel Bank and you now follow your Sponsor into a new Team Pay Center ready to earn another \$500 from your team sales.

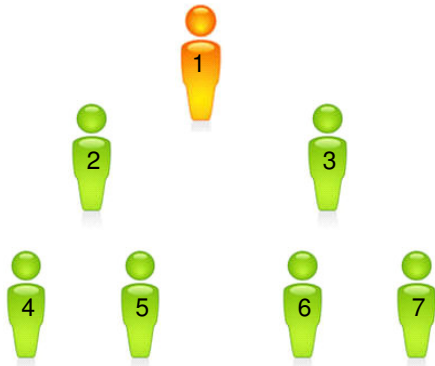

The Express 500 Plan is truly a 'once out of pocket', forever in profit source of quick and Wealth Acceleration income to skyrocket your business right out of the gate.

*An Associate may immediately earn Fast Start Commissions from Retail Membership Sales. An Associate will be entered into the Express 500 Pay Center after making 8 Retail Express Membership Sales. If an Associate purchases an Express Travel Plan, the 8 Retail Sales requirement is waived.

The Power of Two – Compound Leverage

YOU

Express 500 Pay Center Completion Via:

- ❖ Direct Sponsoring
- ❖ Spill Over
- ❖ Spill Under
- ❖ Wealth Acceleration Via Team Re-Entry

Let's take a closer look....

Each person enters their Sponsor's Express Team Pay Center in the first available position following their sponsor, represented here by the Green Associates. Our software will automatically place your personally sponsored team members in your Express Pay Center, so your team follows you every time they enter an Express Pay Center.

Associates enter the Pay Center from the top down and left to right in real time.

It takes only 6 people entering your Pay Center to create a pay cycle and the member in the top position is paid the Express \$500 Team Cycle Bonus and instantly re-enters into the next available position on his or her sponsor's active Express Pay Center.

What is most exciting is the Teamwork. Pay Centers can fill through the efforts of the team members upline, team members downline and the Team Members re-entering the Pay Center after cycling. This is teamwork at it's best!

The results? Income acceleration like you have never experienced before!

The Power of Two Begins with You

Since you do not need to rely solely on your own efforts or those of your direct team members, you can rest in the knowledge that whether you are currently working your business, on your dream vacation or even asleep the entire company momentum is pushing you and accelerating your income.

To qualify to be paid on every cycle, after your first cycle in the E500 Pay Center, you must have 2 Qualifiers. These Qualifiers can be present anywhere at the Express 500 Level. Our software automatically keeps track of your qualifiers for you 24/7.

If you have sponsored one Associate when you cycle, you receive \$250 Cycle Bonus and your Sponsor receives \$50 Sponsor Match Bonus, and will be re-entered into your Sponsor's E500 when you sponsor your next Associate.

If you have not sponsored an Associate when you cycle, you receive \$100 Cycle Bonus and are re-entered into your Sponsor's E500 Pay Center when you sponsor one Associate.

The simplest and fastest way to qualify for Team Bonuses is simply by having 2 of your personally sponsored Team Members advance to your Team Pay Center.

Because the Express 500 Team Pay Center can fill many different ways – this is your Wealth Acceleration Formula! It can fill from **direct sponsoring, from spill-over, from side spill, and what we call Vertical Wealth Acceleration – Team Members recycling, entering your Pay Center**. This means that it actually requires fewer and fewer new sales each time you Cycle to generate a potential unlimited \$500 paydays. And once you are fully qualified with just 2 Express Vacation Plan sales to 2 new Associates, there is no limit to the number of times you can cycle.

Direct Sponsoring

The fastest way to jump start your business is simply to use our marketing system to share the NetTrav Express vision with everyone you know and with the millions you don't know – your very own online marketing system can find them for you.

When you refer someone and they purchase a NT Express Vacation Travel Plan for \$350, you immediately earn a \$50 Retail Commission. Now when they also register as a NTX Associate our cutting edge software automatically places that person in the next available position, following you in your Express 500 Team Pay Center.

As you will soon see, you also benefit from Vertical Wealth Acceleration residual income as your Directly Sponsored Team Members follow you again and again.

Spill-Over

Your Express 500 Team Pay Center can also be filled by **Spill-Over**.

Let's say that when you get started today, you enter the Team Pay Center, entering into the open number two position (see Chart 1), following your Sponsor. And because your sponsor is moving quickly with the marketing system, he or she also sponsors 2 other people today. This means that these people will be placed in your Sponsor's number 3 and 4 positions in Chart 1, which falls directly under to you. And if - you, or your sponsor, or one of the other Team Members upline to your Sponsor – were to sponsor someone else, that person would also fall under you. Now just 4 more team members

sponsored by the two Associates now under you, or sponsored by you or your sponsor will complete your Team Pay Center and generate a Team Bonus Pay Day for you.

The beauty of the E500 is that no matter when someone joins your Team, they will always join you in your E500 Team Pay Center. This new Team Member also contributes to other Team Members at the same time! At least 3 people directly benefit whenever anyone joins us. And as you will see as you continue, the entire team actually benefits because of a phenomenon called Vertical Wealth Acceleration.

And remember, the more Team Members you sponsor, the more residual income you earn on E500 because each time one of your qualified team members cycles, you benefit in two ways. First, you earn a \$100 Sponsor Matching Bonus and the cycling Team Member that you sponsor is re-entered onto your Team Pay Center to assist you and two other Team Members to cycle.

Spill Under

If one of the Associates under you in your Pay Centers sponsors an Associate, this creates Spill Under for you.

Are you beginning to see how quickly the Express 500 Team Plan can pay you unlimited \$500 Team Bonuses?

Vertical Wealth Acceleration

Vertical Wealth Acceleration is the key to what makes Express 500 such an incredible way to start a business. In a typical business, income is only generated once for each sale. And in traditional network marketing, this is also true. Only Vertical Wealth Acceleration makes it possible to generate accelerated residual income without generating a new sale.

How is that possible?

Vertical Wealth Acceleration simply means that when someone you sponsor cycles, they are automatically re-entered into Express 500 in the next available position in your active E500 Team Pay Center, and this can happen over and over with every Team Member you have sponsored following you onto your Pay Center every time they cycle!

Even better, their Team Members are following them, and on and on, so with team building – assisting your Team Members to sponsor their Team Members, all these Team Members can push you through the Team Pay Centers, again and again.

The impact on the entire team is an added plus and this is something to really consider.

You see, not only are your Team Members going to push you through, but when you cycle, you are going to re-enter under your sponsor which also accelerates your Sponsor's Team Pay Center Cycle. And this continues to accelerate the cycling process throughout the team!

Vertical Wealth Acceleration can effectively create a domino effect which accelerates everyone's income. And this means that instead of constantly having to sponsor new people to earn \$500 bonuses, all you really need to do is sponsor a few go-getters with vision and energy and provide them with the support to get going and their efforts can literally put your Express 500 on autopilot!

Because Vertical Wealth Acceleration causes E500 to move so rapidly, cycles can literally happen weekly, daily, or even hourly. Although it is possible to cycle once on the E500 prior to actually sponsoring your first person, simply sponsor 2 people on Express 500 and you are qualified to earn *unlimited* Express 500 cycle bonuses and matching bonuses.

Now let's show you how to upgrade your Express Travel Plan to Voyager 1000 where teamwork makes the dream!

Voyager 1000 (V1K)

You may upgrade your Express Travel Plan Membership with 1000 Voyager Travel Points purchased for \$500 and immediately added to your Travel Bank. This Associate Upgrade places you in a simultaneous Power Matrix Team Pay Center – the V1K.

Before we explain the revolutionary way our software engineers have designed our Team Pay Centers, let's talk about how you get paid when you advance to Voyager 1000 (V1K).

Each Cycle pays you a \$1,000 cycle bonus until you reach the rank of Ruby. At that point, you are given a raise and you now earn \$1,500 per cycle to infinity!

When any of your personally sponsored Team Members cycle, you earn \$100 every time. You also earn a second generation matching bonus of \$100 when any of their team members cycles! When you achieve the rank of Ruby by cycling two times in the Voyager 1000, the Sponsor Bonuses jump to \$150 each. When you cycle in the Voyager 1000, you earn 500 Team Dollars to automatically re-enter Voyager 1000 Team Pay Center where you follow your sponsor to earn unlimited \$1000 bonuses, and you receive 1000 NetTrav travel points to use for immediate travel or accruing in your Travel Bank until you reach the rank of Ruby when you will receive 1500 Travel Points with every V1K re-entry.

NetTrav also escrows 1,000 additional Team Dollars for you to help quickly move you to Summit 10K Team Pay Center.

The most exciting part is that on your very first V1K Cycle, NetTrav will also award you \$650 team dollars to place you automatically in the NetTrav Edge residual plan for 6 months to earn passive residual income with your team - without any addition effort on your part.

What does this REALLY add up to in pay outs for each of the first 2 Voyager cycles – how about \$3350 worth of cash, products, and leverage to future income!

Summit 10K

Once you have 2000 Team Dollars in escrow with NetTrav (completed with only 2 Voyager 1000 cycles) you will automatically advance to the ultimate compensation structure - Summit 10K. With your Summit 10K upgrade, you immediately receive 5,000 Travel Points to travel now or accrue toward your dream Escapes Vacation!

You may also opt to advance to the Summit 10K after your initial purchase of an Express Travel Plan and a Voyager 1000 Upgrade. You may also upgrade to the Summit 10K once you have cycled once at Voyager 1000. You can take advantage of this option by using your NTX earnings, your escrowed funds from your first V1K Cycle or purchase Summit for \$2,000. For Associates who upgrade to Summit 10K prior to their first V1K Cycle, NTX rebates you \$1,000 and advances you to the Ruby Rank on your next V1K Cycle.

You have arrived! Talk about big money...

When you cycle in the Summit 10K Team Pay Center with the help of the entire NTX Global Team, you earn \$10,000 per Cycle.

Three generations of matching bonuses are paid to you when your team cycles Summit 10 K. You earn \$1000 each time one of your personally sponsored team members' cycles. You earn a second generation matching bonus of \$500 and even a third generation matching bonus of \$500.

Each cycle also pays you 2000 Team Dollars to automatically re-enter you in the next Summit 10K PAY CENTER following your sponsor to earn \$10,000 bonuses to infinity.

You are awarded an astounding 5,000 Travel Points which can immediately be used for your dream escape or can be added to your Travel Bank for the ultimate adventure!

Just stop for a minute and do the math! When you do, it will be crystal clear why NetTrav has eliminated the pitfalls in network marketing and is truly setting a new standard. There is simply not another plan that pays you what you richly deserve so rapidly.

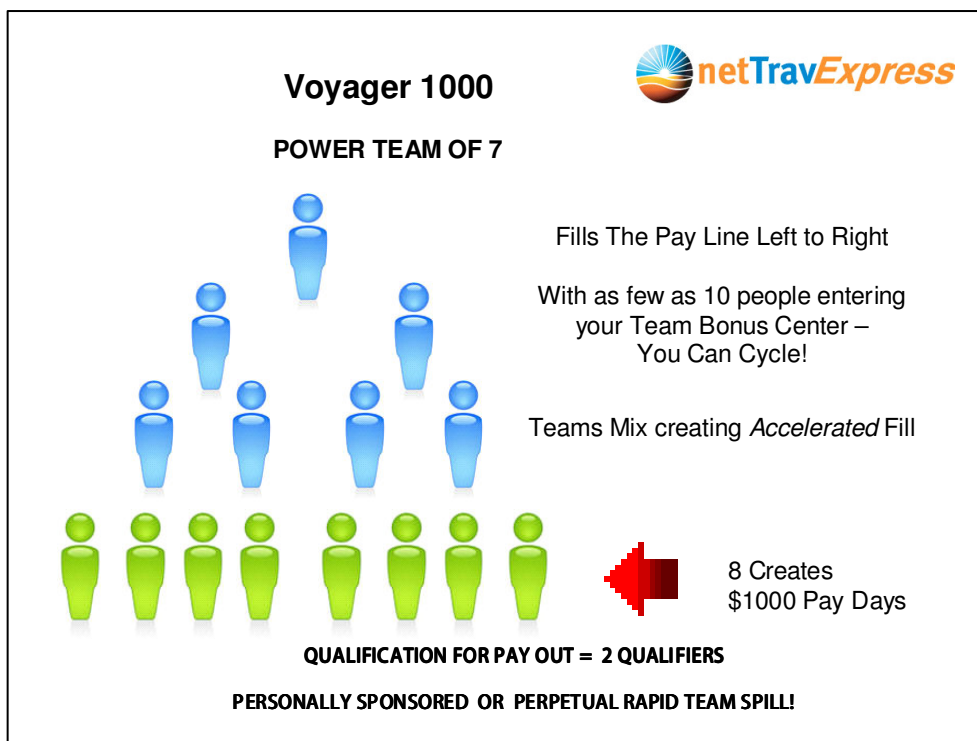

While you and your team continue to rack up perpetual \$500 Express 500 bonuses, our Global Team is pushing you through to receive additional bonus income streams at both Voyager 1000 and Summit 10K. And we have not even talked about the automatic residuals coming in from NetTrav Edge.

Before we do, let's cover why this works so flawlessly. The genius is in how our software evaluates the entire team to make sure our structures move everyone through quickly to keep paying out faster than any other plan in the industry.

Unlike other tracking software, our custom software was designed by brilliant engineers specifically to deliver our vision and your dream. The software makes our team structures move at warp speed and tracks everything for you automatically in real time. You can watch your income explode right from your own NetTrav Dashboard Command Center – your business' virtual back office.

Our Team Pay Centers Voyager 1000 and Summit 10K use the revolutionary concept of Power Teams. This means you always have team momentum behind your earning potential. No longer do you have to rely on the strength of just you and your direct downline to advance your income.

The revolutionary manner in which the NTX Team Pay Centers fill and then continuously reorganize brings the dream back into network marketing.

A Closer Look at Voyager 1000 (V1K)

Each person enters the Voyager 1000 on the payline which automatically fills with 8 members following the Power Team of 7. Keep in mind, to qualify for Income and Bonuses, every person sponsors 2 who follow them into their Pay Center. Our software will automatically place your personally sponsored Team Members in your structure, so your team follows you at all times.

The payline always fills from left to right, as eligible members enter in real time.

It takes only 8 people entering to cause a cycle and the member at the top is paid the corresponding cycle bonus and instantly re-enters the next available pay line position in his or her sponsor's active PAY CENTER keeping those cycling bonuses arriving very quickly.

NetTrav's proprietary software uses a weighted scale to balance reorganize the teams so you can depend on flying through again and again knowing our exclusive no stall features are built right in!

This means you are literally pushed through each cycle by the momentum of the entire Power Team and their Teams. This virtually eliminates the frustration we discovered existed in other companies.

The simple brilliance happens when the pay line fills with 8 people. As the person at the top cycles, the software automatically creates 2 new Power Teams, clearing the pay line and moving you closer to the top. Instead of the structure splitting, our software analyzes the 14 remaining team members to create 2 new teams in a power balanced, fair and ideal manner to double the speed of each cycle.

The result? Income acceleration like you have never experienced before!

Our software organizes the new Power Teams according to specific rules that apply a weighted score to each team member to automatically move you into the strongest possible position.

Before you can fully appreciate the impact of weighted balanced reorganization, it is important to understand how it works if none of the rules are applied.

In a totally equal world, the pay line fills and 2 new Power Teams emerge, moving you up one level and clearing the pay line. Now the pay line fills once more with the next 8 members who may come in from brand new Associates or Associates leveraging their earnings from the E500 or Associates re-enter the Team Pay Center after completing a cycle. And the more people you sponsor, the faster this happens because our software automatically seeks you out and places your team into your active Team Pay Center helping to move everyone along quickly.

Once the pay line fills, it creates a new Phase of this Cycle and 2 new Power Teams are created and you advance up one level. 4 team members enter beneath you via **Direct Sponsoring, Spill Over, Side Spill and Vertical Wealth Acceleration** and the pay line is cleared for 8 more positions to fill automatically.

Once this happens, 2 more Power Teams are created and now you are sitting in the top spot ready to cycle and do it all over again the instant the pay line fills up.

Since you do not need to rely solely on your own efforts or those of just your direct team members, you can rest in the knowledge that whether you are currently working your business, on your dream vacation or even asleep the entire company momentum is pushing you and accelerating your income.

To qualify to be paid at Voyager 1000 and Summit 10K, you need 2 Qualifiers on every Cycle. These Qualifiers can be present at any Phase of your current Team Pay Center – from the moment you enter the Voyager 1000 or Summit 10K Team Pay Centers until you are in the #1 position ready to be paid the Team Bonuses. You cannot be penalized when the structure reorganizes - you can only benefit. Our software automatically keeps track of your qualifiers for you 24/7.

The simplest and most advantageous way to qualify is simply by having 2 of your personally sponsored Team Members advance to your Team Pay Center.

Perpetual Rapid Team Spill – Voyager 1000 and Summit 10K Exclusive Feature.

You can also become qualified by Perpetual Rapid Team Spill which helps to ensure that everyone wins and no one is left behind.

Let's say that your sponsor is Jane and Jane has also sponsored Susan and Bob. Let's say you are Jane's first enrollee and you are the first to follow her to the Voyager or Summit Pay Centers.

When you move onto the pay line you will be automatically placed in Jane's active Pay Center along with Susan and Bob. Now with Susan and Bob's entry, Jane now has 3 personally sponsored people in the PAY CENTER and she only needs 2 Qualifiers. This means that our software will automatically allow Bob to act as your qualifier during this cycle. We call this an Inherited Qualifier. You may have as many as 2 Inherited Qualifiers on each Pay Center Cycle. Now because Bob is not sponsored by you, he does not make you eligible for matching bonuses and he will not follow you when he cycles, but your sponsor has just helped you qualify for the \$1000 V1K or the \$10,000 Summit 10K Cycle Team Bonus Paydays through the unique Perpetual Rapid Team Spill feature of the NTX compensation plan.

Now let's say that you sponsor Amy and she enters the Pay Center and because you are her Sponsor, not only does the software automatically place her in your Team Pay Center to fill the pay line for the team, you are now fully qualified to be paid when you cycle! You have one Inherited Qualifier and one Personal Qualifier.

The reason we call this Perpetual Rapid Team Spill is because this single action helps accelerate the cycling process for everyone.

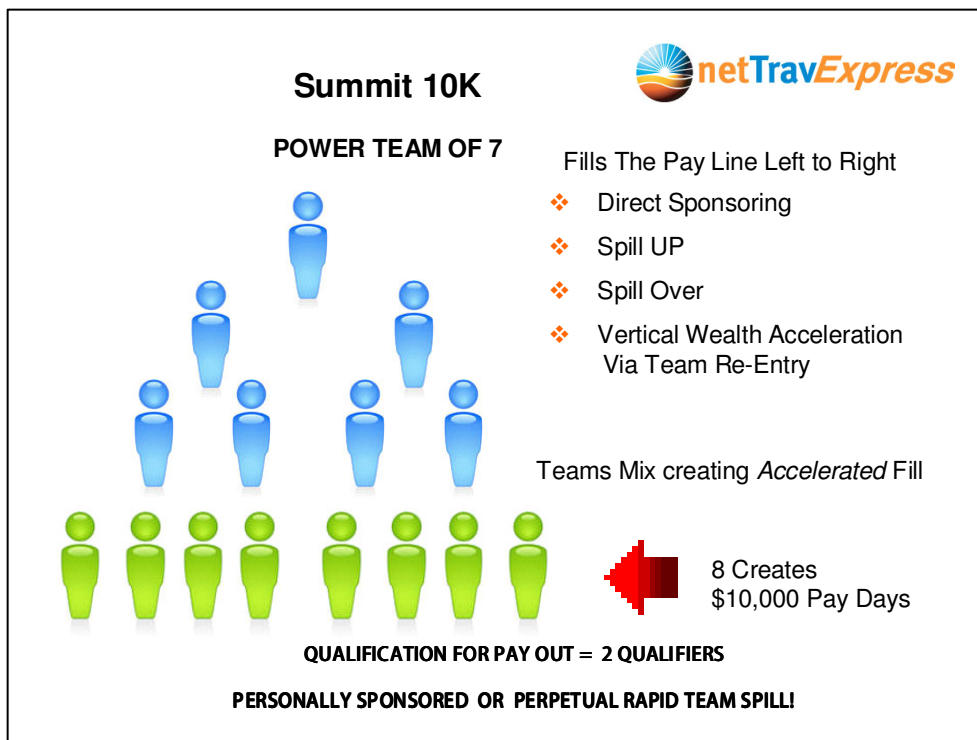

The highest weighted Qualification is 2 Personally Sponsored Team Members. So what happens if you receive a Qualifier from your Sponsor and then your second personally sponsored team member enters your Team Bonus Center?

Everything remains in place, your second personally sponsored team member is temporarily assigned to one of your Team Members to assist them in qualifying, but with the presence of this personally sponsored person on your Pay Center, you are given the highest weighted Qualification Rank.

The software evaluates Qualification first and then Seniority for determining the placement for the two new Power Teams in each Phase of the Pay Center Cycle. It then reorganizes all fourteen Team Members into 2 new Power Teams, balancing the placement left and right across both teams, arranging them by seniority top to bottom. Seniority is simply the software evaluating the sequence that people entered that Team Pay Center. The earlier your entry into the Team Pay Center, the more senior you are.

This process keeps happening perpetually keeping everyone qualifying in the most balanced, efficient manner possible and it keeps the Pay Center Cycle moving.

The same Vertical Wealth Acceleration phenomenon you are experiencing at Express 500 also benefits you here.

Summit 10K

Just like V1K, the simple brilliance happens when the pay line fills with 8 people. As the person at the top cycles, the software automatically creates 2 new Power Teams through balanced reorganization, clearing the pay line and moving you closer to the top. Our software analyzes the 14 remaining team members to create 2 new Power Teams in a power balanced, fair and ideal manner to double the speed of each cycle.

Our software organizes the new teams according to specific rules that apply a weighted score to each team member to automatically move you into the strongest possible position.

Once the pay line fills, it creates a new Phase of this Pay Center Cycle and 2 new Power teams are created and you advance up one level. 4 team members enter beneath you via **Direct Sponsoring, Spill Over, Side Spill, and Vertical Wealth Acceleration** and the pay line is cleared for 8 more positions to fill automatically.

Once this happens, 2 more Power Teams are created and now you are sitting in the top spot ready to cycle and do it all over again the instant the pay line fills up.

Since you do not need to rely solely on your own efforts or those of your direct team members, you can rest in the knowledge that whether you are currently working your business, on your dream vacation or even asleep the entire company momentum is pushing you and accelerating your income.

To qualify to be paid at Summit 10K, you need 2 personal sponsored members at the Summit 10K and you need 2 Qualifiers on every Cycle. These Qualifiers can be present at any Phase of your current Team Pay Center – from the moment you enter the Voyager 1000 or Summit 10K Team Pay Centers until you are in the #1 position ready

to be paid the Team Bonuses. You cannot be penalized when the structure reorganizes - you can only benefit. Our software automatically keeps track of your qualifiers for you 24/7.

The simplest and most advantageous way to qualify is simply by having 2 of your personally sponsored Team Members advance to your Team Pay Center.

You can also become qualified by Perpetual Rapid Team Spill through Spill Over just like in the Voyager 1000.

The software evaluates Qualification first and then Seniority for determining the placement for the two new Power Teams in each Phase of the PAY CENTER Cycle. It then reorganizes all fourteen Team Members into 2 new teams, balancing the placement left and right across both teams, arranging them by seniority top to bottom. Seniority is simply the software evaluating the sequence that people enter that Summit 10K Team Pay Center. The earlier your entry into the Team Pay Center, the more senior you are.

This process keeps happening perpetually keeping everyone qualifying in the most balanced, efficient manner possible and keeps the Team Pay Centers moving.

The same Vertical Wealth Acceleration phenomenon you are experiencing at Express 500 every day also benefits you here at Summit as well. Team Members will enter Summit 10K Pay Center following their Sponsor after cycling on a Summit 10K Pay Center.

Simple, Effective and Achievable

Knowing the market was demanding solutions to improve compensation to eliminate stalling and reduce attrition; only NetTrav has stepped up by deploying a team of world class software engineers to create a structure that automatically reorganizes each team according to strength and balance.

The innovation provided by weighted team balanced reorganization is an industry first that eliminates every possible failure mechanism. You asked and Net Trav has responded to meet the demand unlike any other company.

Net Trav's innovative software was purposely designed to be intuitive enough to continually analyze each team as it reorganizes to create the first ever Global Team Plan to provide you and your team the ideal set of circumstances for nonstop rapid Team Bonus Income.

Our structure does not split, it reorganizes. When the pay line fills, the 14 team members are reorganized to create 2 new Power Teams using several key factors we have identified to be absolutely effective in advancing your momentum:

- ❖ The software identifies all Qualifiers and places a priority grade on those with Qualifiers that are both personally sponsored team members.

- ❖ The software also places a priority grade on those members with 2 personally sponsored team members present – even if the software already assigned a Qualifier from the Sponsor.
- ❖ The software tracks the exact time and date each member entered the Pay Center and places a priority grade based on seniority.

Each of these priority points determine how the Power Team is then reorganized and those with the highest number of priority points at each reorganization are placed closest to the top.

Everyone wins because these are the exact factors that can cause a Pay Center to cycle rapidly.

It works no matter what the current situation is for each cycle and it works whether the software is looking upline for Qualifiers at Voyager or upline for Qualifiers at Summit. This means you can quickly Automatically Advance, jumping even your upline. It also means that we have considered what happens when these Team Pay Centers cycle so quickly that you might not have had a chance to qualify, then the software simply reorganizes the Power Teams according to seniority.

In a nutshell, weighted reorganization not only keeps us all moving quickly, it leaves no one behind. We all win!
